TO WHOM IT MAY CONCERN

CERTIFICATE OF COMPETANCE

I confirm that I have known SOHATRAM of Gabes for the last 10 years and have carried out several major contracts with them moving very heavy, wide, high and long pieces on the public highways in Tunisia .

I can confirm that they have the personnel with sufficient competence and qualifications to carry out these sorts of contracts.

I can confirm that their equipment is of the highest order for the most part bought new in the last 5 years from suppliers who have the highest reputation in the heavy move industry and therefore they are able to carry out virtually all the transport and heavy lift contracts that a petroleum or other energy company might require.

I can confirm that they are competent to master the risks associated with this sort of transport and heavy lift contact using their own highly skilled personnel.
I can also confirm that to date they have carried out all the contracts that I have given to them in a totally satisfactory manner.

W S Carter
