To whom it may concern

This is to confirm that Sohattram has been providing transport and heavy lift services to Perenco Tunisia Company (ex-CMS Nomeco Tunisia) with entire satisfaction during the last twelve years.

Thanks to their highly qualified personnel and good maintained equipment, they proved themselves to be very competent in their field of activity providing our oil and gas operations continuous full support.

We do confirm that thanks to their large inventoried equipment such as but not limited to cranes, trucks, low-boys, forklifts and even pick-ups, they proved their ability of easy access to our remote areas in the desert without any delays.

We strongly recommend Sohattram to any oil and gas company that may require similar transport and handling services.
